EDUCATION

TUFTS UNIVERSITY

MASTERS / **PHILOSOPHY**

AUG 2012 - JAN 2015

COLLEGE OF WOOSTER

BACHELORS / **PHILOSOPHY**

AUG 2007 - MAY 2011

RECENT EXPERIENCES

General Assembly

DEC 2017 - MAR - 2018

Web Development Immersive Student

- Successfully completed accelerated 600+ hour program
- Designed and created four projects, each completed within a five day time period
- Presented said projects to groups of peer developers

PROJECTS

backOUT

<https://rebrand.ly/backout>

RESTful API, Rails, JS, JSON, JQUERY, Handlebars.js

- Single-page choose-your-own adventure game that allows authenticated users to create games and, on the basis of their choices, adds select sentences to a given game.

Bucket.list

<https://rebrand.ly/listbucket>

RESTful API, MongoDB, Node, Express, Handlebars.js

- Team project. Built RESTful API using Express, Node, and MongoDB to create a bucket list for authenticated users to track their dreams -- and, upon completion, tweet them. Front end used previous technologies.

#Blisst

<https://rebrand.ly/blisst>

RESTful API, HTML5, CSS3, JS, JSON, JQUERY, AJAX

- Built RESTful API using Ruby on Rails with a PostgreSQL database of lists and items linked to authenticated user accounts, then built a single page application to make AJAX queries to that API and display live results.

Tic-tac-toe

<https://rebrand.ly/tictacsdt>

HTML5, CSS3, SASS, JS, JSON, JQUERY, AJAX

- Single page application that makes AJAX queries to an API for authenticated user functions; allows users to play against guests and an artificial intelligence and records personal game statistics.

CBRE State Street

AUG 2015 - OCT 2017

Lead Customer Service Representative

- Produced monthly, quarterly, and ad hoc reporting on global work order completion statistics
- Acted as point of contact for all North American buildings as well global contact for the database
- Updated the database as needed to reflect all work orders

Tufts University

JAN 2012 - JAN 2015

Graduate Teaching Assistant

- Taught sections of up to 70 students personalized material based on the course
- Graded work and worked with professors to design appropriate rubrics
- Maintained records of grades for all students
